PRESS RELEASE

Equitech announces the adoption of an Insider Trading Policy

Compliance with SEC regulations underway

Mullica Hill, August 1, 2019: Equitech today announced the adoption of a new insider trading policy.

Equitech is seeking to return to trading status with the OTC Markets. As such, and on its continued operational improvements, the company's Management Team has adopted an insider trading policy.

Federal securities laws prohibit the purchase or sale of securities by persons who are aware of material nonpublic information about a company, as well as the disclosure of material, nonpublic information about a company to others who then trade in the company's securities. These transactions are commonly known as "insider trading." With the Insider Trading policy in placed, Equitech is one step closer towards making trading possible for our shareholders.

"Equitech has added about 10 new sales representatives in North America in the past 2 months and is considering the addition of several more. These efforts have begun to increase the size of our sales pipeline and bring the company close to some important large opportunities. We are; therefore, organizing our operations internally. We began efforts to seek ISO certification and establish procedures and policies to get Equitech in full compliance with the OTC markets ASAP." said Dr. Jaime Gómez, President & Chief Executive Officer of Equitech.

Headquartered in Mullica Hill, NJ, Equitech specializes in the design, sales, installation and service of UV-vis spectrophotometers and fiber optic instrumentation systems for the measurement of color, chemical composition, turbidity & haze and film thickness in the plastics, chemicals, paint, coatings & films, pharmaceuticals, and other industries.
