We're excited to share that Equitech will be exhibiting at the Plastics Recycling World Expo 2025, taking place November 12-13 at the Huntington Convention Center in Cleveland, Ohio!

As the plastics industry continues its drive towards greater sustainability and circularity, this event is a must-attend gathering for professionals dedicated to innovation and a greener future. We're proud to be part of this movement, showcasing our latest solutions, technologies, and advancements that contribute to a more sustainable plastics economy. Don't miss out – register for your free tickets today!

Why you should join us:

- Discover cutting-edge innovations in plastics recycling including our Closed Loop Color Control system for L*a*b*.
- Connect directly with leading plastics recyclers and suppliers of reclaimed plastics, additives, and recycling machinery.
- Gain valuable insights from 100 expert speakers and an AI-themed conference program across four theaters.
- Explore solutions that are shaping the future of sustainable plastics, from compounding to extrusion and testing.
- Access four co-located expos for a comprehensive industry overview: the Plastics Recycling World Expo, Compounding World Expo, Plastics Extrusion World Expo, and Polymer Testing World Expo.

We'd love to meet you in person, discuss industry challenges, and explore potential collaborations. Don't miss this unparalleled opportunity to be part of the conversation!
